Ness County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors

A total of 9 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Ness County economy.¹ These 9 sectors have a total direct output of approximately \$99 million and support 606.7 jobs in Ness County. Running the model for all 9 sectors simultaneously produces the following results:

Agriculture Contribution in Ness County

		0				
				% of Gross		% of Gross
		% of Total	Total	Regional		Regional
Impact Type ²	Employment	Employment	Value Added ³	Product ⁴	Output ⁵	Product
Direct Effect	606.7	24%	\$22,966,890	14%	\$98,527,412	60%
Indirect Effect	102.7	4%	\$7,808,549	5%	\$14,213,393	9%
Induced Effect	33.7	1%	\$2,669,933	2%	\$4,641,348	3%
Total Effect	743.1	29%	\$33,445,371	20%	\$117,382,153	71%

As shown in the above table, agriculture, food, and food processing supports 743.1 jobs, or 29% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$117 million, roughly 71% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 9 agriculture, food, and food processing sectors is approximately \$33 million, or 20% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 20% of the total economy.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, Grain farming is the top employer in the agriculture industry with 199.5 employees. This table also shows the amount of jobs that are created by the agriculture industry in Ness County.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting: https://implan.com/index.php?option=com_content&view=category&id=19

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value Added = Labor Income + Indirect Business Taxes + Other Property Type Income

⁴ GRP = Final Demand of Households + Governments Expenditures + Capital + Exports - Imports - Institutional Sales

^{5 =} Intermediate Inputs + Value Added

Top 10 Industries Affected by Employment

	Total	Total
Sector Description:	Employment	Output
Grain farming	199.5	\$43,526,038
Beef cattle ranching and farming, including feedlots and dual-purpose ranching		,
and farming	154.6	\$24,972,711
Veterinary services	133.1	\$10,482,014
All other crop farming	95.4	\$7,548,395
Wholesale trade	29.8	\$5,948,668
Support activities for agriculture and forestry	15.3	\$932,031
Truck transportation	13.5	\$1,880,197
Animal, except poultry, slaughtering	10.5	\$6,199,577
Monetary authorities and depository credit intermediation		\$1,625,804
Farm machinery and equipment manufacturing	8.7	\$5,175,020

The Grain farming industry directly contributes approximately \$44 million to Ness County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Top 10 Industries Affected by Output

	Total	Total
Sector Description:	Employment	Output
Grain farming	199.5	\$43,526,038
Beef cattle ranching and farming, including feedlots and dual-purpose ranching		
and farming	154.6	\$24,972,711
Veterinary services	133.1	\$10,482,014

Monetary authorities and depository credit intermediation	10.0	\$1,625,804
Owner-occupied dwellings	0.0	\$1,370,272

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Ness County's economy.

Sector Description:	Employment	Output
Oilseed farming	0.2	\$230,693
Grain farming	199.5	\$43,526,038
All other crop farming		\$7,548,395
Beef cattle ranching and farming, including feedlots and dual-purpose ranching	, , , ,	# ' yo ' o yo ' o
and farming	154.6	\$24,972,711
Animal production, except cattle and poultry and eggs		\$183,772
Animal, except poultry, slaughtering		\$6,199,577
Bread and bakery product, except frozen, manufacturing		\$209,191
Farm machinery and equipment manufacturing		\$5,175,020
Veterinary services	133.1	\$10,482,014
		

All 105 counties in Kansas have IMPLAN models with an agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
